

Daniel 12:3

WHO IS GOD?

A very good question. There are a lot of different answers to this question. Some people say, "There is no God." Your answer to this question will determine how you treat other people and where you will spend eternity. Our belief about who God is will also determine whether we worship God or worship ourselves. If we love God then we will love people. We have three major religions in this world. They are opposite each other, therefore they cannot all be true!

Let me explain;

Christianity says, "That God died for man."

Islam says, "That man must die for God."

Hinduism says, "That God is who you make him to be in your mind."

Christianity says, "That God made man."

Islam = self worship

Hinduism = self worship

Christianity = God's grace

Self worship is you trying to do for God what God has already done for you!

Grace is God doing for you what you cannot do for yourself!

By grace you are saved by faith and not of yourselves. See Ephesians 2:8. We all make mistakes. My worst mistake was rejecting Jesus Christ. My best decision was accepting Jesus Christ as my savior. Jesus asked Peter "Who do you say that I am?" Who do you say Jesus Christ is? See Matthew 16:16. How you answer the most important question in your life will determine your past, present and future life! Who do you say that He is?
